## About us

---

The European Documentation Centre (EDC) is an EU library, archive and information centre in one. As a point of contact, research and advice for science, the region and the general public, it provides documents, publications and other resources on the European Union (EU).

The EDC is based on a cooperation agreement with the European Union (EU) and is well connected: it works closely with the European institutions, EU-related specialist networks and advice centres at all levels (regional, national & international).

---

## Our services at a glance

---

- » The EDC researches, advises and informs you on all EU-related topics (e.g. European legislation, political measures or EU funding and grants).
- » We answer your questions on EU issues and help you with enquiries ranging from straightforward document searches to in-depth research on European topics, either online or print.
- » Our centre compiles relevant documents, publications and sources of information for you and arranges further contacts to regional, national and international organisations with an EU connection.
- » In addition, we provide a wide range of EU literature, media and resources.

---

## Frequently asked questions (FAQ)

---

- » *Where to find EU directives and regulations?*  
The EDC offers you access to the Official Journal of the EU, legal texts and treaties.
- » *How can I find out more about EU funding programmes?*  
We inform you about funding conditions, application procedures, best practice, tools and other contact points.
- » *Who can inform and advise me on specific policy areas of the European Union?*  
We will find the key documents, studies, political guidelines, press releases and other information you need: from A for Agriculture to Z for Zero-Carbon.
- » *What sources does the EDZ offer?*  
Books, journals, documents, specialised databases, think tanks and other resources.
- » *I would like to study / work in Europe and need helpful information?*  
We show you where you can find job and training opportunities in Europe and what you need to know about study exchange programmes and funding opportunities.
