Regulations – at a Glance: Research and Procurement

Standard	Proved in	How to obtain
ASTM Standards	CD ROM	ASTM standards up to publication year 2000 are available. Please send your enquiry about individual standards to normen@ulb.tu-darmstadt.de stating the exact number. You can pick up a printout of the document at one of the service and information desks; electronic transmission is not permitted for licence reasons.
DIN Standards	in full text in the database Nautos	Via Nautos. Individual printed DIN standards are only available at ULB from before 1980 and cannot be ordered as an interlibrary loan. For **DIN VDE** standards, please see **VDE regulations, DIN VDE**.
Draft DIN Standards	in full text in the database Nautos	Via Nautos. However, there may be some delay in the publication of full texts, so part of the objection period may have already expired by the time the standard is available in Nautos. If not yet available via Nautos, some may be viewed free of charge via the Draft standards portal.
Withdrawn DIN Standards	No longer included in the Nautos licence from 2026 onwards.	
DIN Paperbacks	Via TUfind.	Via TUfind. If not available in ULB, may be ordered as an interlibrary loan. Standards on specific topics are printed in full text in DIN paperbacks.
DVGW rules	The ULB has licensed the "Water" rules section (complete edition without DIN). DIN standards are contained in full text in the database Nautos database.	DIN standards via Nautos. All other documents in the DVGW Rules and Regulations online via DBIS.
DWA Instruction Sheets	The rules and regulations of the German Association for Water Management, Wastewater and Waste (Deutsche Vereinigung für Wasserwirtschaft, Abwasser und Abfall e.V.), without full texts, are listed in Nautos.	ATV guidelines and DWA bulletins in full text via DWA Regelwerk online

EN	Nautos only confirms **European standards**; there is **no full text**. Every accepted EN standard is published with a national foreword as a **DIN EN** standard in Germany. These are available in full text in Nautos.	Standards can be ordered through Foreign standards service or directly via the website of the European Standards Organisation. **DIN EN** standards **in full text** via Nautos.
Eurocodes (EC)	German standards that belong to a Eurocode are contained as **DIN** or **DIN EN** in **full text** in Nautos.	Eurocodes are Europe-wide standardised technical rules that specify how structural design should be conducted. There are 10 Eurocodes (EC 1 to EC 9), each consisting of several individual standards and a national appendix. It is possible to check which standards belong to a Eurocode at www.eurocode-online.de. For instance, the **Italian** or **English versions of a Eurocode** are **not contained in Nautos**. They may be available from Beuth/DIN Media Verlag, which also publishes manuals on the individual Eurocodes.
IEC Standards	IEC standards are **not** available as a complete package for Nautos. It might be worth taking a look at the IEEE Xplore database, where full-text versions may be found of some ISO / IEC / IEEE standards (restrict search to 'Standards').	IEC standards are available from VDE Verlag or directly from the IEC web store (in Geneva). Some **ISO / IEC standards** are **publicly available** in the list of Publicly Available Standards.
ISO Standards	ULB has licensed pure ISO standards (ISO norms) in **full text:** Nautos. Only currently valid ISO standards are stored with full text. **DIN ISO** standards and **DIN EN ISO** standards are always included in **full text** in Nautos. The IEEE Xplore database contains full-text versions of some ISO/IEC/IEEE standards (limit search to 'Standards'), but not the pure ISO standards	Via Nautos. Printed full texts can be ordered through an interlibrary loan. Please place a free order after registering in the hebis portal (column to the left of the hit list '**To the free order**'). A search for ISO standards is also available here - **full text for a fee**.
ÖNORM, ANSI etc.	Nautos only confirms **national standards from other countries**, there is **no full text**.	Standards can be ordered through Foreign standards service or directly via the website of the particular country's standards organisation (see 'Source of supply' field in Nautos). E.g. for ÖNORMEN through Austrian Standards. It is worth searching in Google for older standards. Example: The www.danskbyggeskik.dk portal offers historical Danish building standards as PDF files.

SAE International	(= SAE Technical Papers & SAE Technical Standards) are **not** documented in Nautos.	• FID move offers free access to SAE International for members of the institutions from the professional user group after personal registration. Further information: https://move.fid-lizenzen.de/ • Access to over 350 SAE eBooks licensed by the ULB via TUfind • List of sheets available in the ULB. Please contact the Service & Information counter of the ULB Lichtwiese.
SEE/SEL/SEW	Steel application lists (SEE) Steel and iron delivery conditions (SEL) Steel and iron material sheets (SEW	The steel application lists (SEE) 170 to 468, the steel and iron delivery conditions (SEL) 14E to 422 and the steel and iron material sheets (SEW) 11 to 88 can be viewed at the Service & Information desk at the Service & Information counter of the ULB Lichtwiese. They are not available in their entirety: Inventory list
VDI Guidelines	in full text in the database Nautos	Via Nautos. VDI guidelines **cannot** be ordered through an interlibrary loan.
VDE Regulations, DIN VDE	**can be seen** at the VDE Standards Library **Explanations and comments** on VDE standards are available under **ZN 3020** on the 4th floor of ULB Stadtmitte. The **printed VDE regulations** are available as a loose-leaf collection until the year 2021 in the ULB Stadtmitte, 4th floor at ZN 3020. VDE regulations cannot be ordered via interlibrary loan.	Anyone can use the VDE Standards Library in TU's IP area (if required via VPN). Regional users can use ULB's research PCs. Special offer for **students:** Individual DIN VDE standards can be obtained via the **Standards service for young members of the VDE**. Membership required, see: https://www.vde.com/de/mitgliedschaft
VDMA Standard Sheets, VDMA Specification	**Not** available at ULB. A list of VDMA standard sheets is available here.	Full texts must be purchased separately through VDMA. Individual printed VDMA standard sheets are available at the Service & Information counter of the ULB Lichtwiese.
